Purpose
To outline the responsibilities and levels of involvement required by Physical Resources personnel when contractors request a shutdown and/or start-up of utilities or services to buildings which are part of a construction project and where the contractor is the constructor.

Scope
All Physical Resources personnel involved with shutdowns of utilities or services and contractors performing work on the University’s main campus.

Procedure
Refer to Physical Resources standard operating procedure 1.2.32 – Contractor Shutdowns and Start-ups on Construction Projects.
