REQUEST FOR SUPPLIER QUALIFICATION

Consultant Prequalification 2021

Project No. 210001

ADDENDUM 6

February 18, 2021
Part 1 - GENERAL

1. The following is provided to proponents as additional information and/or clarification and/or in response to questions.

2. This Addendum shall form an integral part of the Request for Supplier Qualification (RFSQ) and amends the original package and shall be read in conjunction with the RFSQ dated January 8, 2021. This Addendum shall take precedence over all requirements to the aforementioned RFSQ with which it may prove to be at variance.

3. Receipt of this Addendum shall be acknowledged on form Appendix B as a part of your submission. Failure to do so may subject the Proponent to disqualification.

4. This Addendum contains:
   .1 Part 1 – GENERAL
   .2 Part 2 – CLARIFICATIONS

Part 2 – CLARIFICATIONS

QUESTIONS / ANSWERS

1. Question
   Regarding the civil large project category, identified as having a total project value of $2,000,001 up to $15,000,000. Can you confirm that this total project value would include the value of all disciplines on a project (i.e. architectural, structural, civil etc.), and the expectation is not to provide past projects where only the civil component was over $2,000,001?

   Answer
   The values provided are total construction budget values.

2. Question
   The updated version of the RFSQ now divides projects into Small (upto $2 Million) and Large ($2,000,001 to $15 Million). When giving examples of Project Experience for large projects, can the total construction value of the large project being used as an example exceed $15 Million as long as it is relevant experience?

   Answer
   Project values may surpass those of the RFSQ, however higher points will be achieved for those projects that meet all criteria of the similar project definition.

3. Question
   Similar to another proponent who inquired about receiving OAA Certificate of Practice during Covid, due to recent firm amalgamation, we required a new certificate of authorization from Professional Engineers Ontario (PEO). We were provided with a letter confirming our license and good standing, however because of Covid closure of the PEO office, we cannot receive the official certificate in the timeframe. Please confirm that the letter from PEO confirming license and standing is acceptable given the current pandemic.

   Answer
   Letter from PEO confirming license and standing is acceptable given the pandemic.
ADDENDUM 6
Request for Supplier Qualification
Consultant Prequalification 2021
Project No. 210001

4. **Question**
   I only have one question, in the Draft Contract for Architectural Services, item 1.12 mentions projects must achieve a LEED Silver accreditation. Does this apply to all expected projects in both the small budget and large budget categories? Please confirm.

   **Answer**
   The requirement for LEED will be indicated in future project Request for Proposals.

5. **Question**
   Our organization does not have a corporate seal as it is not a legal requirement to have one. We assume that this minor technicality will not prevent us from qualifying for this work. Please confirm if electronic signature with a statement that the person signing has authority to bind the company will be accepted.

   **Answer**
   Electronic signature with a statement from those having signing authority to bind the company is acceptable.
